**Module 010**

# Study to be a workman

## Contents

### Part 1. His tools – the Bible

1. The Bible – the Word of God
2. Jesus – the Word of God
3. How was the Bible written?
4. Who wrote the Bible?
5. Parables
6. Miracles
7. Key parts of the Bible
8. Studying the Word

### Coursework.

Each section of this module ends with a test paper, from which the student should select one or more questions to answer, and submit these to the **local tutor** for assessment. The work will be marked and returned to the students, and should be retained by them.

Diploma students should complete questions from a minimum of 6 test papers in Part 1 of this module. Having completed this module, Diploma students are required to send a selection of their marked answers to the UK for second marking by the **module tutors**, together with the signed record of all marks for that module. The **module tutors** are responsible for awarding the final module mark that will count towards the student's overall assessment.

Those students completing test papers at Certificate level are not required to send their work to the UK.
